THE Winnipeg Free Press reproduces letters from the Glen Campbell party and Jas. McIntosh written respectively from Peace river and Slave lake post. The Campbell party started from here with pack horses and dogs. They state that they had had an easy time, losing only one horse out of the 60. They will winter on Hay river and propose packing through to the east branch of the Liard. McIntosh and his partner had gone down the Pembina with a twenty five foot boat and four and a half tons of supplies and then tracked to Slave lake.

There is gold everywhere along the Stewart, but no big pay at present prices of provisions.

Common and Cleve, of Illinois, who were of the same party did not go out. They have gone north of the Sturgeon with a view of selecting homesteads. All the party were delighted with the Edmonton district as a field for mixed farming.

FROM FINDLAY RIVER.
A party of seven prospectors from Fort Graham, Findlay river, and one from St. John, Peace river, arrived this morning by way of Athabasca Landing. They are members of several parties who are still pushing on for the Black river and the Dease, and Pelly. Some of the parties represented were using boats up the Findlay and some pack horses. The boat parties had found the river very difficult, after reaching the canyon, about 30 miles above Graham. Some of the boat parties had pushed on beyond that point, but were having a hard time, and had sent back to Findlay's Hope for horses they had left there. The boat parties using boats were at the mouth of the Omicoma. So far nothing has been found on the Findlay or any of its tributaries to warrant men in going to work, although there are colors. The parties travelling with horses had reached a point about 100 miles above Fort Graham, on July 27th. The Walker party from Agriola, and others were about twenty miles further on. From Graham northward up the Findlay there was an Indian trail which the prospectors were cutting out wide enough for pack horses. Lang's band of cattle was 100 miles beyond Graham and travelling well. There had been no losses so far since spring opened although the oxen were carrying packs. An English party which had come in from Ashcroft was met here for the Indian branch of the Findlay to prospect. Several other parties had also arrived from Ashcroft. Moody and party were camped about 60 miles above Graham on July 27th. His destination was uncertain, no doubt depending on the success the prospectors ahead had in trail making. The railway survey parties were met between the crossing of Peace River and Duvegan. Several members of the Fresno party are coming in by trail from Peace river, including Mr. and Mrs. Garner. The names of the parties from Findlay river are: J. T. Sloan, J. Anderson, Belvian, Minnesota; Frank Terrell, Chicago; O. T. Emery, Bradford, Pennsylvania; John H. Myers, Cincinnati, Ohio; and M. E. Welch, Detroit; M. McKinnon, P. E. I. From St. John, Henry Read, Lacombe, Alberta.

EDMONTON BULLETIN, AUGUST 27TH, 1898.

ATHABASCA TREATY.

The attention of the BULLETIN has been called to the dates fixed for the negotiation of the Indian treaties in the Athabasca and Peace River districts next spring. It is stated that the time intervening between the dates fixed for meeting the Indians at the various points is barely sufficient to allow of the commissioners moving from one place to the other, and makes no allowance for delay in the negotiations. As these are a different race of Indians from those already treated with it is fair to suppose that at least as much time will be taken up in preliminary talk, especially when the half breed scrip will be arranged for at the same time. As a matter of fact the Chipewyans and Beavers are much more difficult to bargain with than the Crees, and in all probability will require much longer to close the deal with. If the commissioners are delayed at any one point either by the non-arrival of the Indians or by delay in negotiations they cannot keep their appointments at other points. This will be looked upon by the Indians as a breach of faith and will render treaty making all the more difficult. Besides it will add very materially to the cost of the negotiations. If the Indians come in at a certain time and the commissioners are not there to meet them they must be fed at government expense until the commissioners come or they will in all probability leave for the woods again, as none of them have supplies ahead. These are the facts as stated by practical men and the government would do well to revise their dates so as to make due allowance for delays. Better have the commission with nothing to do for a few days than have a number of bands of angry and hungry Indians to feed and deal with.

The government has seen fit to send word to the Indians of their desire to treat with them in a most informal manner, that is by verbal communications to Hudson's Bay officers, missionaries and others. It would be much better for the government to issue a printed circular containing the statements they desire to make and let that be placed in the hands of all parties who can be reached and are able to read, in the district affected. In this way the information would be spread at first hand, and if misleading reports got in circulation they could easily be contradicted.

It is particularly desirable that a good understanding should be arrived at with the half breeds of the district affected, preliminary to the Indian treaty, as it is through their friendly offices the Indians can best be reached.

The Free Press denies that members of the Norwegian settlement at Limestone lake are selling out and moving away on account of the proximity of the Galician settlement. But then the Free Press will deny anything. Fortunately Free Press denials do not count for more than Free Press assertions in the public mind. No doubt the Free Press thinks that to be near a Galician settlement is quite a drawing card to people of other nationalities. If it does here is a proposition: Winnipeg has been agitated from time to time by the problem of vast areas of vacant lands surrounding it. Here are people—desirable people the Free Press says, agriculturalists purely, industrious and thrifty, having a little money, so the Free Press says—a most desirable class surely. Then why not solve the problem by settling the Galicians on those vacant lands. If the people of Winnipeg want them in close proximity no one in other parts of the country will object. Of course a few might be sent out to the Pembina Mountain country, some to the Portage plains or Carberry, and a small detachment to the suburbs of Brandon. It seems to be a doubtful policy which persists in sending such an estimable class of people where—whatever their merits—they clearly are not wanted, and refuses to send them to those localities where, if the newspapers are to be taken as voicing the sentiments of the com-

munity, they would be received with open arms. Or again, why not dump a few thousand of them down in Ontario where they seem to have lots of enthusiastic friends. We at Edmonton are not hogish. We don't want to keep all the good things to ourselves.

NEW WHEAT.

Tribune, Winnipeg, Aug. 23.—Samples of excellent threshed wheat are on the table at the Grain Exchange from Neepawa. The price for this year's crops has been opened at 65c to 66c afloat Fort William for delivery in September. What was probably the first transaction of the season for new wheat was put through to-day, the farmer getting 66c per bushel afloat Fort William or 54c in the country.

LACOMBE.

Fred Stevens, Frank Hippick, Walter Simpson and three young men from the United States started from here Aug. 8th with several pack horses, en route to the headwaters of the Saskatchewan river by the Mountain House trail.

Mrs. David Cannon and son returned home from a very enjoyable visit in Ontario on the 8th. Mr. Ross, of Barrie, Ont., arrived here a short time ago and being so well pleased with the country has purchased a ranch at Buffalo lake. Dr. Gilmore, our veterinary surgeon, has gone in partnership with him and at present they are busy putting up hay.

Mrs. Mair returned from Banff last week. Miss Jean Donovan spent a few days with the little Misses Glass.

Mrs. Bagley gave a very enjoyable tea party in honor of her daughter, Mrs. Richardson, of Canmore.

Mrs. Urquhart gave birth to a young daughter on the 10th. The Epworth league gave a lawn party on the 16th. A bountiful repast was served on the parsonage grounds and afterwards the guests were honored with a musical treat.

A car load of sheep has arrived for our farmers. Mr. Gimmell, of Olds, came up last week and will take charge of one of the country schools.

Eldon Jamieson, of Edmonton, is spending his vacation at his old home in Lacombe.

Rev. Purdy, of Wetaskiwin, returned home after filling appointments in the Presbyterian church.

Mr. Darling, one of our new settlers, is at present building quite a large addition to his house.

Mr. Darling is well pleased with his new home.

The Presbyterian church is being painted, which will add very much to its appearance.

Miss Nina Matthias will leave in a few weeks for Demills Ladies' College, (Methodist) St. Catharines, Ont. She goes chiefly for music, but will take an art course as well.

Mrs. Matthias gave a tea party in honor of Miss Michener, teacher in this college, and who is at present spending her vacation with her brother.

A badger arrived here last week from Wetaskiwin, but as it seemed to evince warlike propensities, it was consigned to another world.

Some of our farmers have commenced reaping and there is every reason to think that the grain will be a good yield.

ANCIENT HISTORY, REVISED VERSION.

EDITOR BULLETIN.

Sir:—An item headed "Ancient History," appears in the last issue of the "BULLETIN," in which you have been grossly misinformed by the statement that "Mr. Spence was the secretary of a department in Kiel's government, and was a member of the council, etc.," which is the purest fiction, and I would simply say there is not a single word of truth in it, as already stated in the BULLETIN. This can be amply verified by responsible old timers here, such as Mr. James Gibbons and others who know the facts. As to my connection with the "New Nation" newspaper of which I was for a short time the editor, as such I upheld the rights of the people of the country giving the true state of affairs to the outside world. Even if I had been a member of the provincial government I do not see anything that I should be ashamed of to deny to-day. It is evident to me that this man, your informant, has been instigated by some one here who has some personal enmity towards me; who out of "pure cussedness," as the Yankee says, would try if possible to make me appear as a cowardly liar. For this reason only I take any notice of the item.

Yours &c.,

THOS. SPENCE.

Edmonton, 27, Aug., 1898.

NOT IN THE CROW'S NEST PASS.

The following news item from Ottawa shows what action is usually taken by those in authority when a coroner's jury proves abortive; of course only where the C. P. R. or some other great corporation is not concerned:

"Delphie Boyer, a brother of Leon Boyer, whose body was found on Barclay road on Saturday morning, has complained to the attorney-general of Quebec of the hasty and insufficient investigation made by the coroner's jury. As a result a thorough enquiry has been ordered, and Louis and Andre Rippelle have been arrested on a charge of having murdered Boyer."

PETROLEUM REGULATIONS.

Regulations regarding petroleum lands in Alberta south of the C. P. R. main line have been issued. The department may reserve for an applicant 640 acres of land for six months, allowing him to prospect for petroleum for that period. If within that time oil is found in paying quantities the

land may be sold to the party at \$1.00 an acre. A royalty of 25 per cent must be paid to the crown on all sales of petroleum taken from the lands.

These regulations seem to be very suitable for the purpose for which they are intended, namely to secure the prospecting by capital of the Southern Alberta oil fields. They would seem to be quite as applicable to Northern Alberta and Athabasca. The royalty, however, is excessive.

This phrase is on each package of Shredded Whole Wheat Biscuits that we sell—20c each—and contains a great depth of thought in it. Great Britain is invincible. J. L. JOHNSON & Co., Edmonton.

To the Electors of the Edmonton Electoral District.

GENTLEMEN:—

Having been repeatedly urged by a number of the electors of this constituency to allow my name to be submitted for the candidature of this electoral district in the election of members for the next Legislative Assembly for the Territories, I have at length consented.

As you are no doubt aware the elections will, in all probability, be held early this autumn, and I now beg leave to announce my candidature, and I ask your support and influence in the coming contest.

I may safely say that to the most of you I am personally known, and you also know that ever since I came to this country, now nearly twenty-two years ago, I have been actively engaged in raising for this reason, among others, I humbly urge my fitness to represent a constituency which is essentially a farming country.

I claim that in order to fully represent the will of the people in any capacity, the majority of whom are of a certain calling in life, one having the necessary practical experience in that calling, and being fully acquainted with the wants and necessities peculiar to that class, should be chosen.

I do not come before you soliciting your suffrages upon any party platform, and I desire to be distinctly understood that I present myself as an out and out independent candidate, giving allegiance to no party other than to my constituents.

While I do not undertake to guard more minutely the interests of one class than those of another, yet if honored by election I shall make it my chief aim, among other things, to do my utmost towards obtaining a more prudent expenditure of public moneys apportioned to the improvement of roads, the passing of an ordinance for the proper control of cattle and other stock running at large, and for such needed amendments to our statute laws.

While distinctly of the farmers and from the farmers and owing no allegiance to any particular town, I shall at all times do my utmost towards advancing the same interests of both towns and communities in this division in particular and the interests of the whole district in general. I shall give my hearty and independent support to all measures that will conduce to the material welfare of the District of Alberta, no matter from whom or from what party they may originate.

Before the date of election I hope to be able to meet you in person and explain to you more fully my platform and personally appeal to you for your support, and if in your wisdom, you do not then see fit to endorse my candidature, believe me that I shall still regard you with unaltered friendship.

I remain, your humble servant,

ROBERT MCKENNEY.

Edmonton, July 22nd, 1898.

To the Electors
OF THE VICTORIA DISTRICT.

GENTLEMEN:—At the request of a large number of the Electors in various portions of the district, I have consented to once more present myself for re-election.

I hope shortly to have the pleasure of meeting everybody, and merely publish this notice so that there can be no misapprehension.

Yours obediently,

F. FRASER TIER, M.L.A.

To the Electors
OF ST. ALBERT.

GENTLEMEN:—At the request of a large number of the electors of St. Albert electoral district, I beg to offer myself as a candidate at the approaching elections to the Northwest Assembly. I propose to visit all parts of the district before election day and hope to have the opportunity of explaining my views on Territorial questions publicly and personally to the electors.

DEATH OF F. D. TIMS.

Quebec Chronicle, 5th of Aug. '98.

We announce to-day, with unfeigned grief, the death of F. D. Tims, Esq., of the treasury department, a gentleman who was known, not only within the precincts of Quebec, but also far beyond the shadow of its walls, as one of nature's noblemen. His sterling qualities of head and heart ensured him the respect and admiration of very many who had not the pleasure of his acquaintance, but it is only those who knew him best, and the members of his family who can fully appreciate the loss the community has sustained. Always vigorous and conscientious, Mr. Tims was an ideal civil servant, while even the requirements of his regular duties did not prevent him from giving much of his time and ability to the voluntary furtherance of his country's name and fame. It is thus that we find him figuring as a respected and most prominent officer of the Quebec geographical society and several other similar organizations. Mr. Tims has been in failing health for some time, but only took to his bed a few days ago, so that his passing away was somewhat unexpected. He was the father of Mrs. Thomas Norris of this city and leaves two daughters and four sons, three of them in the Northwest and the other in the United States. To all the bereaved relatives we tender our most hearty sympathy.

The subject of the foregoing notice was the father of F. Fraser Tims, M. L. A. for Victoria.

THE CIRCUS.

Lemen Bros. circus and menagerie showed in South Edmonton on Saturday afternoon and evening. There was a very large crowd at the afternoon performance and the frequent applause showed that the efforts of the several artists was appreciated. The menagerie included a cage of lions, a hyena, some leopards, panthers, bears, a kangaroo, monkeys, parrots, etc., three elephants, two Tibetan yaks, (an animal in appearance between a cow and a musk ox) a two humped camel, etc. Altogether a very creditable turn out. The circus work was good and up to date, and there was nothing offensive in the actions or expressions of the performers or the attendants. Possibly the criticism they had received had done them good, and possibly the presence of a number of mounted police on duty had a quieting effect. At any rate it was all right. As to the side shows and skin games the BULLETIN has no knowledge. Possibly they were as such things usually are. Certainly swindling should not be allowed. But if a person refrains from monkeying with what he knows nothing about he won't get hurt. The price of admission was high: \$1.00, and 50c extra for reserved seat. No doubt there are larger menageries and finer circuses on the road, which charge lower prices. But they don't come here. For this company it may be said that everything they had in either menagerie or circus was good and up to date, and when they take the chances and heavy expenses of this far western trip they are entitled to higher prices of admission than they would be where the population is more dense, and the expenses less.
